

Operation Aspic: Cajun Chef Stir-Fries 6 James Bonds; Serving up Thought-Provoking Parody of World's Greatest Spy

Anthony J. Lomas' 'Operation Aspic' brings together all previous James Bond's into one elite force for a unique mission – to steal a secret recipe from the heart of Louisiana's Cajun country so the Queen can win the World Culinary Championships. Sound zany? It's a parody! Fusing his love of Cajun culture with a sweet-and-sour knack for gripping fiction, Lomas leaves his readers contemplating every facet of their lives. This is one book that comes shaken...not stirred.

FOR IMMEDIATE RELEASE

United States of America – From Sean Connery to Daniel Craig, the six men that have portrayed James Bond have amassed a melting pot of sharp skills and good looks that makes anyone's legs quiver. But what happens to each incarnation of James Bond when he is deemed too old to jump out of helicopters and scale buildings? For the first time in history there is an answer – he joins the elite force in Anthony J. Lomas' new novel to dive thick into...err...Cajun cooking.

Don't fret, it's not a typo, but rather the subject of a hilarious, thought-provoking and even slightly deranged James Bond parody titled 'Operation Aspic'.

Synopsis:

Imagine all the previous James Bonds reunited as an Elite Force. Their first mission; go to the U.S. and steal a secret recipe from a very famous Louisiana chef in the heart of Cajun country so the British culinary team can win an upcoming World Culinary Olympics. Piece of cake right? Not so fast. Murphy's law intervenes with one disaster after another and HOLY ____! This story will dispel most of what you thought you knew about the

Cajun people and leave you contemplating what's real and what's not in your own life. By the way, haven't you always wondered what happened to those decommissioned spies?

“This book has it all – Cajun culinary secrets, covert trips around the world and six men who will stop at nothing to steal a recipe that could see the Queen achieve her dream of winning the World Culinary Championship,” explains the author, himself Cajun and a passionate chef. “They have been sitting by their phones for years waiting for them to ring – and here it is – a mission literally beyond their wildest dreams!”

Continuing, “James Bond and the associated franchise really have stood the test of time. But, along with other spy novels, there’s always that mystery surrounding what actually happens to characters when they ‘retire’. Here’s your answer, and it’s going to redefine how you view both the spy genre, Cajun people and many other areas of your life. It’s quirky – but fascinating!”

Readers agree. One Amazon user comments, “I was really impressed with the author's use of the parody of James Bond. Could not put it down touches this funny bone.”

Bernard J. Brown adds, “Great book!”.

United States - <http://amzn.to/1wfysdp>

About the Author:

Anthony Lomas, a proud Cajun and lover of all things James Bond, has managed, with Operation Aspic, to combine his two loves in a humorous, heartfelt slapstick of secret agents schlepping around in Bayou Country. He also loves cooking Cajun food and is based in Lafayette, Louisiana.
